Rail Road, and in the county of Brunswick, immediately ad- prescribed by law, or this notice will be pleaded in bar of through travel, there exists another that has proven to be beyond our control. We refer to the breaking up by the Virginia Companies of the through ticket from Wilmington to New York. The convenience of the traveling public should be a paramount consideration with all enterprises which depend upon travel for their support. More particularly should this consideration have had a controlling influence with all the Companies constituting the Atlantic line, at the very time when the opposite policy was adopted. The Virginia and Tennessee Road, our great competing line, was on the eve of being completed; the outside steamers had reduced the fare from Charleston and Savannah to New York from \$25 to \$15. On one side novelty, if nothing else, drew a portion of the travel from us, while cheapness injured us on the other. These reasons should have made every connecting road more anxious to extend all possible facilities to the traveling public; -but so far from this being the case, the very opposite policy was forced upon us by the Companies running from Weldon to Washington City. The evil still exists, and but one TUST RECEIVED FROM ENGLAND, direct, the leargest | remedy presents itself for our adoption. Further News by Steamer Asia.

NEW YORK, Nov. 11.—The steamer Asia, with Liverpool dates to October 30, has arrived.

The Eastern City, reported as having been burnt near the Cape of Good Hope, was not the steamer of that name, but an emigrant ship from Liverpool, bound to Australia. The ship was built at Boston and owned in England. She was valued, with her cargo, at £100,-

Mr. Bright had made a reform speech at Birmingham, in which he advocated election by ballot and the

American system of representation. It was rumored, in connection with the contemplated visit of the military from America to Ireland, that several seditious societies had been discovered, deriving

their inspirations and money from America. The Portuguese indemnity to France has been reduced to 108,000 francs. The dispute between France and Brazil, in regard to

the boundaries of French Guinea, will be decided in favor of France. A strong article by Count Montalembert, published in the Correspondent, has caused the seizure of that journal and the prosecution of the writer and publishers.

Spain is about to favor the importation of tobacco from the Phillippine Islands, to the detriment of the American planter. All the transports with the troops intended to act

against Mexico had sailed for Cuba. Mr. Genen, the American contractor at Sebastopol,

The China and India mail had reached England. A great number of Chinese piratical vessels had been captured or sunk by the British cruisers. Lord Elgin's Japan treaty is reported to be almost

identical with the American treaty. The London News says there has been no further indication of any permanent improvement in the Atlantic cable since the receipt of a few intelligible signals.-Shares are quoted at \$336.

Mr. Ten Broeck's horse Barbarity ran a race at New Market against Count Bathbyany's horse Olympus, the owners riding their respective horses. Barbarity was declared the winner. Prince Napoleon, it is said, sided with Portugal in

the recent dispute. The Paris correspondent of the London Post asserts positively that the French government has resolved to put a stop to the importation of free negroes into the French colonies.
